katak daftar uchun mashg'ulot daftarchasi • 1-sinf

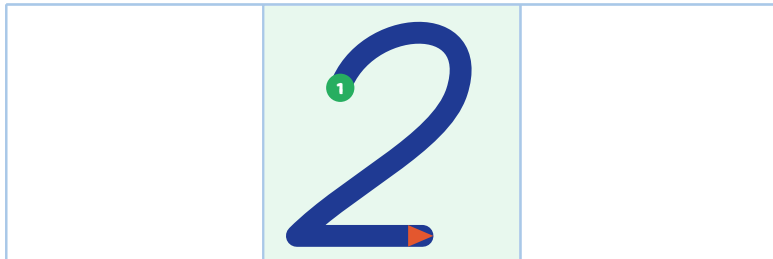

Ism, familiya: _____

Sinf: _____ **Maktab:** _____

Katakda qanday yozamiz?

Diqqat bilan qara: har bir qoidaning namunasi bor

- 1 Raqam bitta katakka yoziladi: biroz qiya, o'ng tomonga tegib.

Yashil nuqta — boshlanish,
qizil uchburchak — tugash.

Raqam katakdan
chiqib ketmaydi.

- 2 Raqamlar orasida 1 katak tashlanadi.

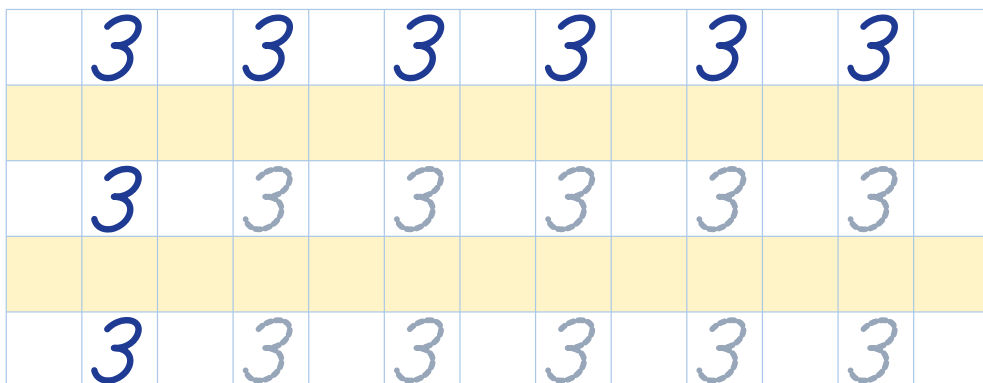

sariq katak — tashlanadi (bo'sh qoladi)

NOTO'G'RI — raqamlar yopishib qolgan

- 3 Yangi qatorga o'tganda 1 qator tashlanadi.

← bu qator tashlanadi

← bu qator tashlanadi

- 4 Misolda har bir belgi alohida katakka. Misollar orasida 2 katak.

1 katak 1 katak 1 katak 1 katak 1 katak 2 katak

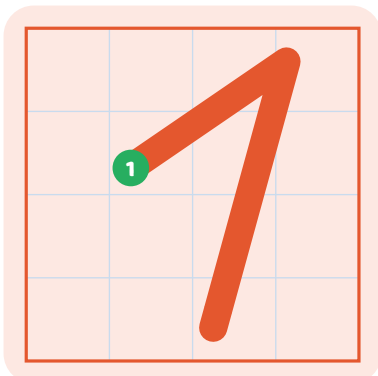

Ustoz uchun: sahifalardagi yuqori katakchalar — kattalashtirilgan, pastdagilar — haqiqiy
daftar katagi (5 mm). Bola avval katta katakda, keyin haqiqiy katakda mashq qiladi.

Sonlar tartibi, qo'shni sonlar, taqqoslash

Three boxes containing the numbers 2, 3, and 4.

A number line from 0 to 10. A red dot is placed above the digit 1. A red box is drawn around the digit 1.

A horizontal number line with 11 dots representing integers from 0 to 10. The dots are colored: the first five dots (0 to 4) are red, and the last five dots (5 to 9) are blue. Below the number line, there are four square boxes. The first box is empty. The second box contains the number 5. The third box is empty and has a red border. The fourth box is empty.
