Xayolda qo'shish va ayirish

10 ichida • 20 ichida • rasmi masalalar • aql charxi

mashg'ulot daftarchasi • 1-sinf

$$8 + 5 = 8 + 2 + 3 = 13$$

Barmoq bilan emas — xayolda hisoblaymiz!

Ko'ramiz → tasavvur qilamiz → bilamiz

Ism, familiya: _____

Sinf: _____ Maktab: _____

Ustoz va ota-onalar uchun

Bu daftar qanday ishlaydi va nimaga asoslangan

Maqsad — bola barmoqda sanashdan xayolda hisoblashga o'tsin. Buning uchun u sonlarni "ko'rishi", bo'laklarga ajratishi va tayyor juftlarni yodda tutishi kerak. Daftardagi usullar Singapur, Yaponiya va Finlandiya boshlang'ich ta'limida sinalgan.

1 Narsa → Rasm → Belgi

Har bir mavzuni avval tugma, cho'p kabi narsalar bilan, keyin rasmda, oxirida misolda bajaring (Singapur metodikasi, CPA).

2 O'nlik ramka

5 va 10 ni sanamay tanish: 7 — bu "5 va yana 2". Ramka xayolda hisoblashning asosiy tayanchi.

3 Bir qarashda tanish

Nuqtalarni sanamasdan aytish. Kesib olinadigan kartochkalarni 2 soniya ko'rsatib, darhol yashiring.

4 Gilos sxemasi

Butun va ikki qism: $7 = 3$ va 4 . Bu sxema qo'shish va ayirishni bitta bilimga birlashtiradi.

5 10 ga to'ldirish

$8 + 5 = 8 + 2 + 3$. O'nlikdan o'tishning eng ishonchli yo'li. Buning uchun 10 ning juftlari puxta yodlanadi.

6 Ikkilangan sonlar

$6 + 6 = 12$ ni bilsang, $6 + 7 = 13$ ni ham tez topasan ("qo'shnisi").

7 Sonlar oilasi

$3 + 4 = 7$ dan $7 - 4 = 3$ kelib chiqadi. Ayirish qo'shish orqali o'rgatiladi.

8 Chiziqli sxema

Masaladagi butun va qismlarni chiziq bilan chizish bolaga qaysi amalni tanlashni ko'rsatadi.

Kuniga 10–15 daqiqa, bitta dars. Bola barmog'ini ishlatsa, to'xtatmang — ramkani chizib ko'rsating va "ko'zingni yum, ramkani tasavvur qil" deng. Tezkor hisob betlaridan nusxa olib, bir necha marta ishlating.

Bir qarashda nechta?

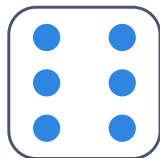

1-qism • 10 ichida qo'shish

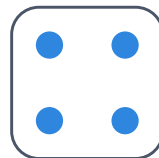

1 Sanamasdan ayt: nechta nuqta? Katakka yoz.

Gilos: butun va qismlar

1-qism • 10 ichida qo'shish

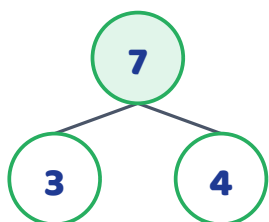

Tepadagi katta doira — butun son. Pastdagi ikki doira — uning qismlari. Qismlarni qo'shsang, butun chiqadi.

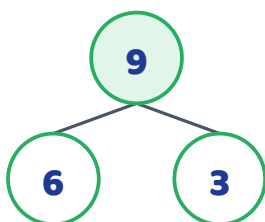

1 Bo'sh doiralarni to'ldir.

1 Har bir uychada 4 ta misol yoz.

8	5	13		
8	+	5	=	13
5	+	8	=	13

9	7	16		

6	8	14		

2 Uychni o'zing to'ldir: tomiga 3 ta son yoz, keyin 4 ta misol.

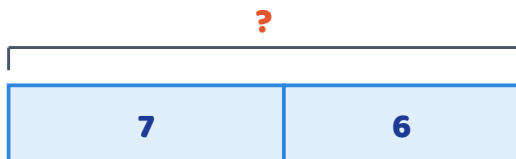

Maslahat: kattaroq sonni tomning o'rtasiga yozsang, misol tuzish osonlashadi.

Chiziq — butun son. Uni bo'laklarga bo'lamiz. Butun noma'lum bo'lsa — qo'shamiz. Bo'lak noma'lum bo'lsa — ayiramiz. So'roq belgisi nimani topishni ko'rsatadi.
